

SAGITTARIUS

NOV 22 - DEC 21

The need for freedom and adventure defines those born under this sign.

Adventurers and optimists at heart, Sagittarians like nothing more than to test the limits and see how far they can go. Natural travellers, they are often found in far-flung corners of the globe. Typically gregarious and at times opinionated, Sagittarians can be counted on to make their presence felt wherever they go.

Generally blunt, they will tell you what's on their mind then move on. Possessing a philosopher's mind and genuine desire to learn, Sagittarians are on an eternal quest to find the meaning of life. Extroverted, optimistic, and usually willing to take a risk, Sagittarius loves new places, big opportunities, and living life large.

They like to gamble and have an uncanny ability to win.
