

ARIES

MAR 21 - APR 19

As the pioneers of the Zodiac, Aries are instinctively drawn to new beginnings, fast moves, fresh ideas and the need to act. Possessing a spirit of adventure and an inclination to do things their own way, life with an Aries is at times turbulent, but often energetic, and always open to change. They thrive on competition, relish deadlines, and love to win. An independent, pioneering spirit often sees them at the front of a queue or behind the fastest car. At times child-like and in most cases naively innocent, Aries mean what they say and say what they mean.
