

AQUARIUS

JAN 20 - FEB 18

Never one to be put in a box, Aquarians are often highly independent, freedom-loving individuals. In fact, the very notion that they can be described by just their star sign goes against the Aquarian grain! They thrive on connecting with others, and will find their tribe by participating in social situations. Innately logical, Aquarians tend to think deeply with the interests of the group in mind. Once decided, they are not inclined to change their minds.

Aquarians are known for brilliant innovation, fresh ideas and keeping up with the zeitgeist or spirit of the times. They can also be counted on to have GREAT hair!
